Professional Summary

Junior Web Developer with a strong foundation in HTML, CSS, Bootstrap, and JavaScript. Currently enhancing development skills through hands-on projects and structured learning at EVs Institute. Familiar with object-oriented programming concepts and basic data structures. Seeking an internship or junior developer role to gain practical experience, work on real-time projects, and grow in a professional software development environment.

Education

Islamia University Bahawalpur (IUB) — Bahawalpur, Pakistan
Bachelor of Science in Information Technology (BS-IT) — *2021 – 2025*

- Comprehensive study of information technology fundamentals, software development, and computer science principles
- Developed strong foundation in programming, web technologies, and software engineering practices

EVs Institute — Lahore, Pakistan
Web Development Training Program — *Ongoing*

- Focused on practical experience, internships, and real-time project development
- Intensive training in modern web development technologies and industry best practices

Projects

Smart Attendance System — Academic Project
Full-Stack Development — *2025*

- Developed a comprehensive university management system for students and professors
- Implemented attendance tracking functionality linked with class timing and study schedules
- Enhanced academic organization through intuitive interface design and efficient data management
- Improved class management efficiency and streamlined academic administrative processes

Gaming Zone Platform — Web Development Project
Frontend Development — *2025*

- Created a unified platform to host multiple games with seamless navigation
- Enhanced user experience through intuitive design and easy access to various gaming options
- Focused on responsive frontend design and cross-browser compatibility
- Implemented modern UI/UX principles to maximize user engagement

E-Commerce Website — Practice Project
Web Development — *2024*

- Built a complete e-commerce website layout using HTML, CSS, and Bootstrap
- Implemented product listing pages with dynamic UI components
- Applied responsive design principles for mobile-first development
- Designed user-friendly shopping interface with modern e-commerce features

Personal Portfolio Website — Personal Project
Frontend Development — *2026*

- Created a professional portfolio website to showcase skills, projects, and technical abilities
- Utilized HTML5, CSS3, and Bootstrap for fully responsive layout across all devices
- Implemented modern design aesthetics with clean, professional presentation

JavaScript Calculator — Programming Project
JavaScript Development — *2025*

- Developed an interactive calculator application using vanilla JavaScript
- Implemented core programming concepts including conditions, loops, and logical operators
- Applied problem-solving skills and algorithmic thinking to calculator functionality

Technical Skills

Frontend Technologies: HTML5, CSS3, Bootstrap 5, JavaScript (ES6+), Responsive Web Design, Mobile-First Development

Programming Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), JavaScript Fundamentals (Loops, Conditions, Switch Statements, Functions)

Development Tools: Visual Studio Code (VS Code), Browser Developer Tools (Chrome DevTools), Git & GitHub (Version Control)

Core Competencies: Frontend Development, UI/UX Implementation, Cross-Browser Compatibility, Code Debugging, Problem Solving

Learning & Training

Web Development Training — Ongoing

EVs Institute — *Lahore, Pakistan*

- Comprehensive training program focused on practical web development experience
- Working on real-time projects and industry-standard development practices
- Gaining hands-on experience with modern web technologies and frameworks
- Preparing for professional internship and junior developer roles

Additional Information

- **Career Objective:** Seeking internship or junior developer position to gain practical industry experience
- **Work Style:** Quick learner with strong problem-solving abilities and attention to detail
- **Team Collaboration:** Eager to contribute to team projects and learn from experienced developers
- **Continuous Learning:** Committed to staying updated with latest web development trends and technologies
- **Availability:** Immediately available for internship or junior developer positions
